

your airbag cushion solution

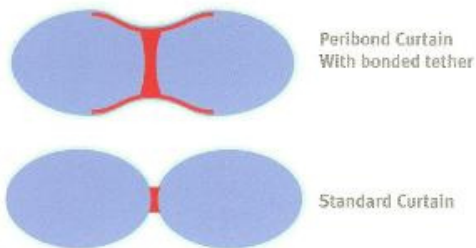

ROLLOVER PERI BOND® CURTAIN

- No leakage: Over 70% of working pressure after 7 sec
- Constant thickness
- On road High performance with lower pressure

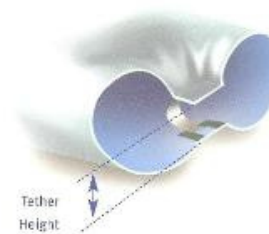

Performance for rollover is illustrated by the following curves:

Our Peribond® curtain is given good results at each temperature tested with hybrid and full helium inflator.

As for driver and passenger, Peribond® permits the use of lighter fabric.

- Peribond® curtain can offer a constant thickness cushion, protecting the occupant not only on standardized position but also in all occupants position, real on road protection. Increasing the surface of contact bag against occupant, the pressure in the bag can also be reduced.
